

Positive Math Statements

use your words to motivate our children to learn math

You used to struggle with this, but now you are really getting it!

Math is a worthwhile challenge.

Let's try to connect this problem to a real-life scenario.

Let's work on this problem together.

If we practice a little more, I think you will feel more confident.

There is no such thing as a math person.

**I believe in you.
I know you can do this!**

I never learned this well; could I try to learn it again with you?

I think we should try a different approach.

Meditating could help us clear our minds.

This math is really fun and interesting!

Time to take a break; we can try again later.
